The Fabulous Fifties

"Time goes quickly, and each generation sets customs and patterns of its own—the 'Gay Nineties,' the 'Roaring Twenties,' and finally the 'Fabulous Fifties.' This last decade has brought a series of events which can hardly be paralleled in the history of man. But these years have also brought many trends of less consequence than those in medicine, science, and the fine arts. The 1950's are the age of Ivy League clothes, rock 'n' roll music, hi-fi, sports cars, and a unique language, all of which have become a part—a significant part—of the life of the teenager. Although some would shake their heads disapprovingly at the mention of such things, we cannot ignore their impact upon society. With this in mind, the medium through which we present the activities, people, and events of this school year, beginning with September and culminating with May, is particularly pertinent. It is with enthusiasm that we, the staff of the 1960 Tatler, present to the administration, to the faculty, and especially to you, the students, the theme—'Fads of the Fabulous Fifties'."

So we got the pictures mixed up.

"Look ma, no cavities!"

Taboo for a Commercial Art student—A clogged air brush.

Student Council gossip session.

"This 'gizmo' should be connected to this here 'what-cha-ma-call-it' and . . . oh heck!"

Shhhhhhhhhhhhh

And $2 \times 2 = 4$, and $2 \times 3 = 5$. Whoops! This is the wrong class.

Doesn't this look like a lot of fun?

Hmmmm! Wonder if that's Spanish they're listening to.

"Hi-ho, Hi-ho, It's off to class we go."

It's up, up, and over! Or is it?

So nice to have a snake around the classroom.

Well what did you expect, The Ritz?

I wonder if those are twenty dollar bills they're making?

"Look Einstein, it's this way."

"Egad!" "I sure hope that's not my car."

"Oh well, easy come easy go."

"So that's where the sack look came from!"

"What, no Spoolies?"

"HMMMMMM. Another press. I think J. Edgar Hoover better look into this!"

"Phooey, who can't draw a straight line?"

Whatever that girl typed, the teacher must find quite interesting.

"Watch the fin—better luck next time."

Board of Education

Robert B. Lynn, M.D.
President

For the past twenty-three years, the Board of Education of Alton has been carrying out the management of the public schools. It sets the machinery in motion necessary for providing the funds to erect new buildings, to repair old buildings, to employ teachers, to purchase instructional supplies and all other necessary incidentals needed to keep our school buildings modern, clean, and comfortable.

The school board is an executive body composed of seven prominent citizens elected by the people of this district. It employs a Superintendent of Schools as its representative to take charge of the everyday executive problems and to keep the organization running in the intervals between the Board's meetings.

We are grateful to the Board for the work it has done in the past and for the work it will continue to do in the future.

DR. J. B. Johnson, *Superintendent of Schools.*

We, the class of 1960, wish to express our sincere gratitude to Dr. J. B. Johnson for his fine work as head of our school system. Indebted are we to a fine man, whose countless hours of patience and unselfish guidance merit such a portion as Dr. Johnson's in our community.

MR. E. M. LEAMON, *Assistant Superintendent*

Mr. Leamon's seven years as assistant to Dr. Johnson prove the indispensability of this fine man. The community and school are proud of Mr. Leamon's excellent service.

MR. MACY PRUITT, *Administration Assistant*

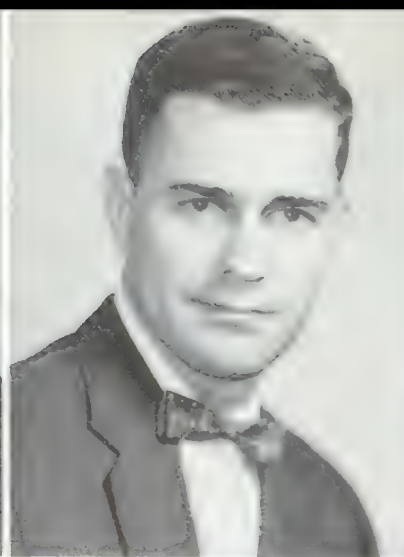

In charge of Junior and Senior High School Curriculum. Perhaps nothing is more important to a good Junior and Senior High School system than its curricula. Ours is one of the finest, and we owe Mr. Pruitt a great deal of thanks.

MR. C. R. WRIGHT, *Administrative Assistant*

In charge of Vocational Education. Today, good vocational training is becoming increasingly important. We, at Alton Senior High School, are proud to have as head of the Olin Vocational Building, Mr. C. R. Wright who is doing a truly commendable job.

MR. G. C. DAVIS, *Principal*

Many of us think we have a good school. How good is it? According to records of the year 1958-1959, we were rated one of the top schools in Illinois. How did we get there? Were we picked at random? The answer is quite obvious. We were picked because our leadership is one of the paramount factors. Mr. G. C. Davis has done a very outstanding job as head administrator of our school. We, the students of Alton Senior High School salute you.

MR. JUREZIZ and MR. ABNER, *Assistant Principals*

Being principal of a large high school such as ours certainly requires assistance. We believe Mr. Anton Jureziz and Mr. George Abner are two of the finest. Our hats are off to these gentlemen.

Alton is a growing industrial metropolis. The center of any growing community is its schools, such as Alton Senior High School is to us. With the leadership these men are giving us, our school will remain a high point in the lives of our graduates and our community.

Who knows what the fads will be tomorrow? When we were in school we can remember everyone dying his hair with cake coloring . . . and if you don't think it was shocking to walk into a class and see a room full of bright red, green, orange and purple-headed students, ask some of the teachers who taught our group. They survived it though — as teachers have survived all the fads of teenagers through the ages.

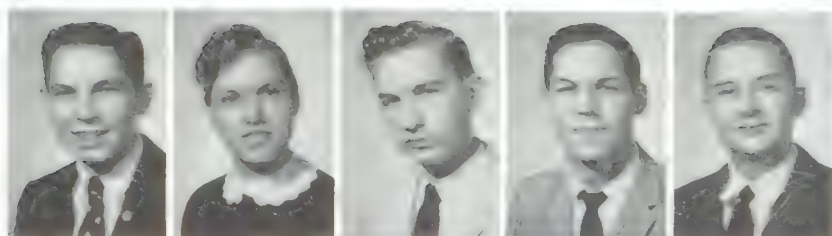

"We dig those real cool figures in algebra, or get all squared away in English class, maybe even have our carefully planned history report go over like a lead balloon." Quite possibly these expressions don't fall in the groove with the type of oral commentary expected from a supposedly educated teenager. The discerning language perfectionist might gasp disdainfully at the use of such phrases. However, as long as we, the students, realize the incorrectness of slang, and keep it in its proper place, which certainly is not in an essay, a speech, or formal conversation, it remains harmless as a threat to the English language.

"My Sister Eileen"

"Everyone's here . . . might as well get started. Places everyone!"

"What could this boy possibly be selling?"

This looks like a tense moment . . .

"Ah! So you finally got a job!"

"Get out, Chick! . . . you snake!"

"The Fleet's in . . . !"

An Innovation Of The Fabulous Fifties

Miss Carolyn Waits, a junior at Alton High School, is the district's first shut-in student using the Executone system which permits her to tune in on classes at Alton High from her bedroom. The girl, attractive and cheerful, has been virtually bedfast for several months following an attack of rheumatic fever.

Carolyn is taking a full load of courses and is keeping up with the rest of the classes. Ordinary telephone lines connect the Waits home in Milton to five classrooms at the school. She can hear the teacher instructing a class and can cut in herself to ask questions.

Carolyn is not cut off from personal contact completely with her teachers. Mr. Thomas is considered her homeroom teacher. He drops by the Waits home twice a week to deliver assignment papers and tests and to pick up those that the girl has completed.

Through superb playing, both the Redbird football and basketball squad gained recognition as one of the strongest prep powers of the area. As a result, and through the efforts of athletic director Don Luketich, television channel KPLR televised two of our home games. The Redbirds on both occasions proved worthy of the honor given them. In the football game with Collinsville, Alton High gained a 39-13 victory. The end result in basketball was the same with the Edwardsville Tigers falling before the 'Birds by a score of 48-41.

The Alton Redbirds, 1959 version, had a very successful year and compiled the best season's mark since 1944 with an 8-1-0 record. Ralph McClain, in his first year as head coach, showed great ability to inspire his boys. Junior Varsity and Sophomore teams, on a somewhat cut-down schedule, turned in 2-1 and 4-2 records respectively.

WE'RE GOING WITH YOU

Whether you knew it or not, almost every day of your school year you've used a product made by Olin Mathieson, or one that Olin Mathieson helped to make.

Once you're established in business or professional life, you'll probably hear a lot more about Olin Mathieson. A good many of you may have business with us, and a few of you may even come to work for us. There will be room because Olin Mathieson is growing. When Olin Industries, Inc. merged with the Mathieson Chemical Corporation in August, 1954, they brought together the skills, facilities and resources of two of the country's most rapidly expanding industrial organizations.

We extend our best wishes to you. May the future bring you all you've hoped for and everything for which you have worked.

*Alice,
Well another
year has gone by and
there are just two more
to go. It seems as if it was
just yesterday that I came to
Alton, but it's already been eight
years. I wish you lots
of luck in your future.
I hope you'll be a
school.*

Thank you very much for the good times you've given me. I enjoyed having you in my class for Juniors & Misses. Do the same next year. Stay as sweet and sincere as you are now. Keep studying and smiling. If you are good I might take you along with the rest of the cheerleaders.
